**October 1, 2019**  
**Avery Posey**  
University of Pennsylvania  
**Hosts:** Ankeeta Shah / Barbara Kee  
**Title:** CAR-T T cells for Cancer

---

**November 5, 2019**  
**Liam Holt**  
Institute for Systems Genetics at NYU  
**Hosts:** Charlie Lang / Allan Drummond  
**Title:** Control of the physical properties of cells and the consequences of compression in cancer

---

**December 3, 2019**  
**Alistair Boettiger**  
Stanford University  
**Hosts:** Charlie Lang / François Spitz  
**Title:** Visualizing 3D DNA paths and gene expression during development

---

**March 3, 2020**  
**Heather Marlow**  
University of Chicago  
**Hosts:** Ashish Thakur  
**Title:** Examining context-specific gene regulation in non-vertebrate metazoans

---

**April 7, 2020**  
**Chaolin Zhang**  
Columbia University  
**Hosts:** Ankeeta Shah / Yang Li  
**Title:** An RNA-centric view of neurodevelopment: From single nucleotide resolution maps to functions

---

**May 5, 2020**  
**Steven Henikoff**  
Fred Hutchinson Cancer Research Center  
**Hosts:** Phoenix Mu  
**Title:** Genome-wide mapping of protein-DNA Interaction Dynamics

---

**June 2, 2020**  
**Peter Parham**  
Stanford University  
**Hosts:** Philipp Ross / Erin Adams  
**Title:** Immunogenetics of humans and other wild hominids

---

**Co-Sponsored by the Genetics & Regulation Training Grant**
